WHO: **Tiffany** - - best known as an '80s pop superstar, Tiffany has sold more than 15 million albums worldwide and scored hits like **"I Think We're Alone Now," "Could've Been"** and **"All This Time."**

Tiffany has now returned to the music scene to pursue the country music career that she dreamt about as a teenager, with her newest album entitled *Rose Tattoo*. It's her eighth studio album and the first to fully explore her country music roots.

She's currently promoting the album with tour dates across the U.S. both solo as well as with fellow '80s teen icon Debbie Gibson for a show dubbed "Tiffany & Debbie Gibson: Journey Through the 80s."

Tiffany has spent her career exploring opportunities as they arose: there were two critically acclaimed singer-songwriter albums, 2000's *The Color of Silence* and 2007's *Just Me*; a successful stint on the TV reality competition *Hit Me Baby One More Time*; and an acting career in projects like the recent tongue-in-cheek Syfy channel monster flicks *Mega Python Vs. Gatoroid* (co-starring fellow '80s teen icon Debbie Gibson) and *Mega Piranha* (co-starring Barry Williams from *The Brady Bunch*). Perhaps most significant was her foray into dance music, which yielded three hits on *Billboard's* Hot Dance Club Songs chart. But as pressure grew to build on her rapidly growing reputation as a dance diva, Tiffany remained determined to follow her heart to Nashville. "It was fun," she says, "but that's not my life."

So three years ago, Tiffany, her son Elijah and her new husband Benn George put down stakes in the Nashville area. She began writing with local songwriters and performing at low-key writers'-night events, gradually convincing local skeptics of her commitment to the genre, and writing the songs that would become *Rose Tattoo*. (*Rose Tattoo is in stores now.*)

WHAT: **Tiffany** will be at **Planet Hollywood Times Square** to promote the release of her highly anticipated country release *Rose Tattoo*, as well as her tour with Debbie Gibson, with a memorabilia donation in the main dining room.

Rose Tattoo - - finds Tiffany sounding entirely herself and entirely at home. This is music that is close to the heart, right down to the album title—a tribute to both the Rose Tattoo nightclub where she learned her craft onstage as a youngster, and to the actual rose tattoo she got as a rebellious teen. **"He's All Man"** bursts with the joy of love, **while "He Won't Miss Me"** addresses the pain of divorce; the aptly titled **"Feel the Music"** is a tribute to the power of song, and Tiffany shows a sultry side on come-hither cuts like **"Love All Over You"** and **"Love You Good."** The buoyant **"Just That Girl"** is Tiffany's clearest statement of principle yet, showcasing both her vulnerability and her strength—and her charmingly self-deprecating sense of humor.

Throughout *Rose Tattoo*, Tiffany introduces herself to a new audience while showing longtime fans a side of her they may have never seen—and she's just getting started.
